Creamy	✓	✓	✓	SW7012	
Antique White	✓	✓	✓	SW6119	
Alabaster	✓	✓	✓	SW7008	

Approval of individual color combinations, using approved colors, can be obtained by completing a Color Change Form which will be reviewed and approved by The Color Committee. These forms are available on the office door in the Clubhouse.

Please allow adequate and reasonable time for committee volunteers to receive and review the request. Once this occurs, a mutually convenient time will be arranged to meet.

According to our documents, color combinations must be compatible with stucco, trim and roofing. Additional criteria requires colors to be harmonious with surrounding properties out of respect to your neighbors and community.

Color approval requests may be obtained by filling out the Color Change Form and putting it in the appropriate mailbox in the Clubhouse.

While Sherwin Williams is used, it is only a suggested guide. Any reputable painting company/contractor, such as Benjamin Moore or Florida Paints (formerly Scott Paints), can color match the approved colors.

To facilitate and expedite approval, Color Change Forms should have a sample swatch attached.
